Faculty

School's greatest asset is it's teaching staff. Our teachers inspire the students, and students end up learning skills for their professional lives. To maintain discipline and innovative atmosphere, we have chosen eligible and highly qualified staff who not only teaches the students, but also educates them.

We provide our students with every opportunity to express their abilities so that they might play their role in serving the nation becoming the future leaders. Our library possesses numerous informative books regarding numerous fields, which can aid students to strengthen and polish their learning. We try our level best to educate our students using effective teaching skills. For this purpose we have provided adequately equipped science and computer labs.

Montessori Section & Play Group

Montessori is an approach to education, that nurtures each child's intrinsic desire to learn. We follow the basic Montessori philosophy incorporating art, computer and outdoor activities. In a class room with age appropriate activities and

learning tools, we strive to develop an environment with flexibility, to meet the needs and channelize the interests of every child in our care.

Seprate campus for boys & girls
